

# Quality Powder Metal Blends

Jet Metals offers industry standard and custom powder metal blends with highly competitive pricing, on-time deliveries and unequalled customer service.

## Premier Supplier of Powder Metal Blends for PM Manufacturers

Jet Metals, Inc. is a blending and remill (regrind) facility with over 25 years of experience. Our mission is to partner with our customers and provide them with high quality blended powder for their component applications.

Jet Metals was founded on the principles of empathy, mutual respect and considerate behavior. These principles apply to our team, and our customers and suppliers.

The name "Jet Metals, Inc." was chosen because, like fighter jets, Jet Metals embodies a passion for winning, an innovative spirit, and formidable strength.

## Our Arsenal

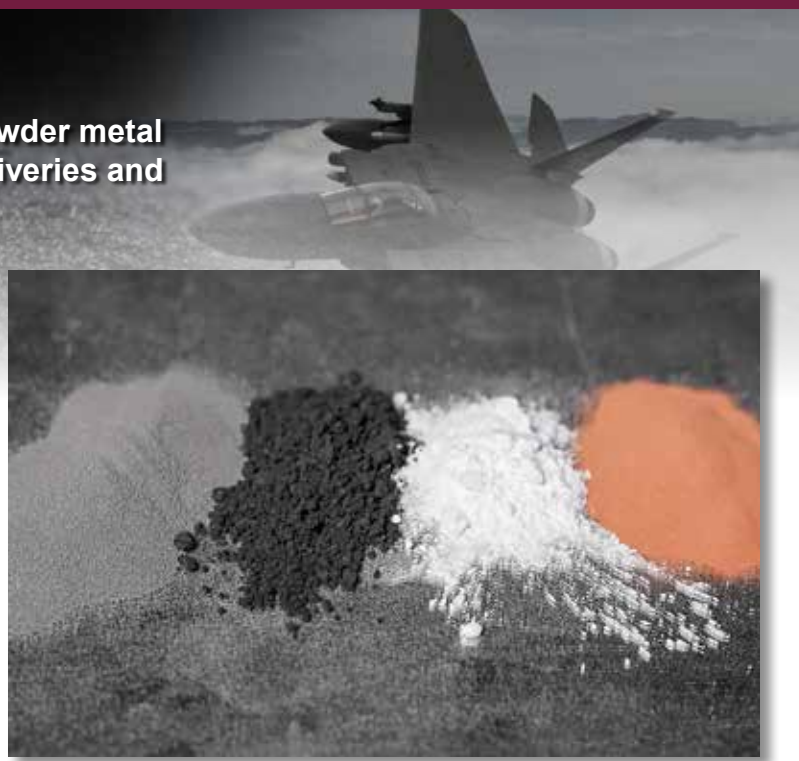

Since 2002, Jet Metals, Inc. is the 'top gun' in new (virgin) and remill (regrind) powder metal blends, outpacing our competitors with unmatched customer service, precision and speed.

Agility and firepower define our capabilities ensuring that we engage quickly with customers, and adapt to their dynamic requirements. Check out our collection of powder blends, equipment capabilities, and dynamic manufacturing processes.
